1. The following is a quotation of the appropriate paragraphs of 35

U.S.C. 102 that form the basis for the rejections under this section made in this

Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5, 7, 15-16, 18-20 and 22-25 are rejected under 35

U.S.C. 102(b) as being clearly anticipated by Hsieh (DE 299 07 467).

Figures 4 and 5 disclose a pawl having pawl teeth comprising a first teeth portion having a first center of curvature and a second teeth portion having a second center of curvature. The first center of curvature and second center of curvature being located at different positions.

Figure 5, for example, discloses a teeth portion (right side of the pawl as viewed from fig. 5) in full engagement with the teeth of the circular gear wheel. It is clear from the figure that the teeth portion (left side of the pawl as viewed from fig. 5) are not engaged with the gear wheel. If the teeth portions were to have the same centers of curvature, then both teeth portions would engage the circular gear wheel at the same time (when in the positions as shown in figures 4 and 5). Consequently, the non-engaged teeth portion clearly have a different center of curvature from the engaged teeth portion.

3. Claims 1-7, 15-20 and 22-26 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Over et al (3,436,992)

Over et al discloses a pawl having pawl teeth comprising a first teeth portion having a first center of curvature and a second teeth portion having a

second center of curvature. The first center of curvature and second center of curvature being located at different positions. Note figures 3 and 4.

4. Applicant's arguments filed August 11, 2005 have been fully considered but they are not persuasive. Applicant's arguments are moot in view of the new ground(s) of rejection.
